CTFL-TERA
CW THULIUM FIBER LASER

The CTFL-TERA series is a range of 2\textmu{}m Continuous Wave thulium fiber laser delivering up to 30W output power with random or linear polarization. The innovative all-in fiber designs offer a very good optical power stability with an excellent beam quality, $M2<1.1$ or $M2<1.3$ depending on the output power. Solutions are possible with a fixed operating center wavelength between 1900nm and 2050nm.

The CTFL-TERA lasers are commonly used for applications such as medical surgery, medical treatment, Solid state laser pumping, plastic material processing and for counter-measure in defense.

The CTFL-TERA series is proposed in turn-key easy rack with a user-friendly front panel. Depending on the model, the rack can be remotely controlled with a RS232 communication through Sub-D 9 connector, or with a RS232 communication through a USB connector and Webpages/Telnet/SSH/SNMP2 through a RJ45 connector. OEM modules are also available with a microcontroller for internal controls, alarms, and RS232 communications making the laser compatible with all systems.

Key features
- Large choice of wavelength from 1900 to 2050 nm
- High output power up to 30W
- Linear polarization available
- Compact module
- Plug & play benchtop
- High beam quality

What applications
- Medical surgery
- Medical treatment
- Solid state laser pumping
- Plastics material processing
- Counter-measure in Defense

The CTFL lasers are available as turn-key benchtop or as OEM module

--- RELIABILITY ---

The Lumibird range of fiber lasers are manufactured with tested components and are submitted to several inspections during the manufacturing process under a rigorous quality management certified in accordance with the ISO 9001:2015 standard. Our all-in-fiber systems offer maintenance-free operation. Countless units are continuously running in demanding environments with no failure.

--- GUARANTEE ---

Our fiber systems are under 1 full year parts and labor warranty. We offer a warranty extension of 1 or 2 years. Please contact us.
